

50kWh Hybrid Energy System Solution for Myanmar

Overview

Installed at a commercial facility in the Yangon Region, this 50kW off-grid system has already demonstrated significant improvements in energy efficiency, reduced generator dependency, and enhanced operational reliability during power outages. Solis has completed a high-performance 50kW solar-plus-storage installation in Myanmar, showcasing how advanced hybrid inverter technology can unlock energy independence and cost savings for businesses in emerging markets. The Solis S6-EH3P50K-H system has delivered <math><10\text{ ms}</math> grid shift, diesel integration, and dynamic energy cost management in Myanmar. Designed around the powerful Solis S6-EH3P50K-H hybrid inverter, the system.

50kWh Hybrid Energy System Solution for Myanmar

Myanmar saw the completion of a 50 kW hybrid solar project by Solis with Longlast batteries, boosting commercial backup and energy resilience.
