

Add the cost of installing the in-home electrical distribution box

Overview

For a straightforward installation of a single standard box in an accessible location, homeowners often see \$120-\$260. Projects involving new or upgraded circuits, larger panels, or difficult access commonly run \$800-\$1,600, with high-end setups surpassing \$3,000 in some. Homeowners typically pay a broad range for electrical box installation, driven by box type, wiring complexity, and local labor rates. This guide presents realistic price ranges in USD to help buyers estimate budgets and plan projects. Installing a new 200 amp panel could cost \$1,800 - \$3,000. However, there are many variables to consider before making the upgrade.

Add the cost of installing the in-home electrical distribution box
