

Andorran Industrial Switch Supply and Configuration

Andorran Industrial Switch Supply and Configuration

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

We have been designing industrial hardware for Modbus and PROFINET to ethernet conversion for over 40 years. This expertise has been used to design the toughest Ethernet switches on the market.

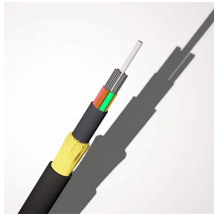

Browse our industrial unmanaged switches, industrial managed switches, power over Ethernet PoE options, and din rail mountable industrial Ethernet switches below. Our solutions allow for a ...

Looking for specifications? Need manuals to help you install, configure, and use your Stratix® switches and devices? You can find it here.

Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches, rackmount switches, and EN 50155 switches designed for use in the rail industry.

Configuration is web-based via a simple and intuitive user interface. From Quality of Service, redundancy, VLAN and SNMP to Access Control Lists, the switches offer a wide range of functions.

The industrial switch configuration manual is a detailed guide that instructs users on how to correctly install, configure, and optimize industrial-grade switch equipment.

Find the perfect connection for every industrial application - from the automotive and chemical industries to the manufacturing and process industries. These solutions are designed for use at all network ...

The AMG570 Series of Industrial Managed switches support 100Mb, 1Gb or 10Gb Ethernet, with port counts from 4-52, and with optional 30W, 60 or 90W PoE

Comprehensive technical specifications, environmental ratings, networking features, management capabilities, and compliance certifications for the Catalyst IE3500 Rugged Series switches
