

Belize Fiber Optic Cable Project

Overview

BTL has joined with Huawei to lay down the Strategic Evolution Underwater Link (SEUL) submarine cable between San Pedro, Ambergris Caye, and mainland Belize. Belize's connectivity to the global Internet is an integral component of its economic development. Not only is it a means of communicating. [Belize City, August 15, 2016] Huawei Technologies USA Inc. The undersea cable. The Belize Telecommunications Limited (BTL) has decided to embark on a venture that will upgrade and improve a hundred fold the service of telecommunications not only to the mainland sector of Belize, but also to the island of San Pedro [See Fig 1. Current supply is from an on-site local diesel generator which causes potential for pollution and is not sustainable in the long term. Stretching over 23 kilometers from the Belize mainland to the Caye, this fiber optic connectivity will be.
