

Cable Trays 2016

Cable Trays 2016

The cable tray is less than 18-inches below the sprinkler. However, the cable tray may be centered directly below some sprinklers, but off to the side for other sprinklers.

Trays are constructed with a hollow wall design to reduce the overall tray weight, yet keep it strong enough to support cabling loads. All trays are available in ventilated (slotted) and solid wall styles.

The work covered under this section consists of the furnishing of all necessary labor, supervision, materials, equipment, tests and services to install complete cable tray systems as shown on the ...
