## Cable trays for electrical wiring laid on the ground

Cablofil's Wiremesh Cable Tray concept is based on performance, safety, and economy. These three qualities make the Cablofil Wiremesh Cable Tray system preferred by installers.

“Metallic cable trays that support electrical conductors shall be grounded as required for conductor enclosures in accordance with 250.96 and part IV of Article 250.”

The most desirable design is to separate power and signal cables in separate cable trays, or to separate wiring systems by a barrier. The sensitivity of signal systems depends on a number of complex factors.

Practices for grounding and bonding of cable trays
