

Circle cut of the distribution box

Overview

Depending on the thickness of the plastic, you can use a rotary tool with a cutting wheel, a hot wire cutter, or a sharp utility knife for thinner materials. Next, secure the box firmly in place to prevent movement during cutting. American Distribution Boxes are made of high-density polyethylene for years of dependable use. Twist and lock 4" pipe seals and. Lift-Off Cover— The removable, screw-secured cover is best for full access during setup or service, but not for frequent entry. Impact-Resistant Polycarbonate— Our toughest plastic enclosures withstand forceful blows that would crack other plastics—even dropping a bowling ball on them won't cause. Production-ready, error-free dielines designed to help manufacturers save time and reduce waste. Change the dimensions and material thickness, and download the production-ready, error-free dielines you need. Kon Kast produces precast concrete distribution boxes in 4 hole, 7 hole, 9 hole and 14 hole styles, as well as marketing plastic distribution boxes for septic fields in Kelowna BC, the Okanagan and British Columbia.
