

Clustered Fiber Optic Patch Cord e2000

Clustered Fiber Optic Patch Cord e2000

LongXing supplies top quality optical fiber patch cord with very competitive prices, every single piece of patch cord is tested in the workshop before delivering to the customer. Customer/special ...

e2000 patch cord is a type of fiber optic patch cord that features E2000 connectors on both ends, widely used for high-speed data transmission.

Features E2000 connectors with metal shutter
Available as hybrid patch cords with FC, LC, SC or ST connectors
Available in different fibre types including OS1/OS2 - G.652D or G657A1, G.657A2, OM1, ...

Accurate alignment: Provide precise fiber slow axis alignment technology for specific needs, such as polarization maintaining fiber jumpers. Wide compatibility: Compatible with various optical ...

The E-2000® ETO connector is a sterilizable, non-magnetic fiber optic solution tailored for medical and MRI environments. Engineered with DIAMOND SA's signature precision, it offers exceptional optical ...

EPCOM E2000 Patch Cord offers secure, low-loss optical fiber links. High-performance connectivity solutions for your professional network infrastructure.

With its precise manufacturing, versatile design, and commitment to quality, the E-2000 fiber optic patch cord is the perfect solution for any network installation requiring perfect high-performance, long-lasting fiber ...

PT offers a wide range of fiber optic patchcords with low insertion loss, high stability, and excellent mechanical performance. Ideal for optical communication, data centers, FTTx, and fiber sensing ...

mechanical and optical interfaces, the E-2000TM fiber optic connector family can cover the most standard and customized requirements in response.

OPTICOM[®] E2000 fibre optic products provide a flexible and modular system with components for fibre termination, splicing, and patching in all applications with superior patch field access, easy ...
