

Cost SFP optical module 200G

Cost SFP optical module 200G

Boost network performance with 200G optical transceivers. Designed for data centers, 5G, and cloud infrastructure, our QSFP56 modules deliver low latency, high reliability, and seamless compatibility.

200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

QSFP56 Optical Transceiver is an InfiniBand 200Gb/s Single-port QSFP56, SR4 multimode parallel transceiver using a single, 4-channel MPO-12/UPC optical connector using OM4 ...

Generic Compatible QSFP56 transceiver supports up to 10km link lengths over single-mode fiber (SMF) via an LC duplex connector. This transceiver is compliant with SFF-8661, and IEEE 802.3bs ...

10Gtek's 200G QSFP56 FR4 transceiver module is designed for use in 200 Gigabit Ethernet links over 2Km single mode fiber. The module has 4 independent electrical input/output channels operating at ...

The 200G QSFP56 SR4 optical transceiver is designed as a cost-effective solution for data centers seeking higher bandwidth without the complexity and cost of 400G deployment.

FS provides 1/2/4G transceivers modules in SFP form factor, supporting transmission distances from 100m to 120km over SMF/MMF fiber and enabling low power and cost-effective connectivity solutions.

The QSFP56 full-duplex optical module offers 4 independent transmit and receive channels, each capable of 53.125Gb/s operation for an aggregate data rate of ...

Litrex's LQ200-FR4DC module is a high-performance, high-cost-performance module designed and optimized for 200G single-mode fiber Ethernet link applications, with a transmission distance of up to ...

Generic Compatible QSFP56 transceiver supports up to 10km link lengths over ...

Compared to existing QSFP28, it has fewer optical components, excellent power consumption, and cost performance. We offer a wide range of products, including single-core bidirectional products, support ...

The QSFP56 full-duplex optical module offers 4 independent transmit and receive channels, each capable of 53.125Gb/s operation for an aggregate data rate of 200Gb/s on 70 meters of OM3 multi ...
