

Custom Flame-Retardant Optical Cables

Custom Flame-Retardant Optical Cables

We carry RHW-2 and RW90-Two-Hour Fire cables as well as Two-Hour Horizontal and One-Hour Vertical Cables. We also carry QFCI Fire Resistant Fiber Optic Cables for communications.

Discover ETK Kablo's fire-resistant fiber optic cables with CPR B2ca rating, designed for fire safety and reliable data in critical infrastructure.

This innovative cable features a patented design that ensures functionality for over three hours in temperatures reaching 1000°C. It is halogen-free and flame-retardant, providing protection against ...

Engineered for critical safety, this fire-resistant optic cable provides reliable data transmission in high-risk environments. Fire-Resistant Optical Cables are specially designed to maintain data ...

CPR fire-resistant optical cables with Euroclass Dca, Cca, and B2ca classifications. Safety and performance for critical applications.

Find your flame-retardant optical cable easily amongst the 51 products from the leading brands (LEMO, LAPP, SAB, ...) on DirectIndustry, the industry specialist for your professional purchases.

As a manufacturer based in China's optical valley, we produce fire-rated optical cables using the same high-grade jacketing compounds (Lubrizol, Dow, etc.) used by major brands, but at a fraction of the ...

Discover our InFire Rated cables today. Find out how we are ensuring safety for schools & public buildings with our fire resistant cables.

Fire resistant fiber optic cables for critical infrastructure and emergency systems. Up to 180 min at 850°C, IEC compliant, custom B2B designs.

Fire resistant cable comes with the construction that will enable it to maintain its properties and functionalities in the event of a fire breakout. Usually, mica tape will be deployed as a fire barrier.
