

Detailed Explanation of Fiber Optic Switch Setup Methods

Overview

In this article we'll break down how fiber internet is installed - from the network fiber drop outside your house to the in-home setup with your router and gateway - and what you should expect at each stage. Fiber optic networks offer many benefits for businesses, including reliability, security, greater bandwidth, and delivery of high-speed internet service. At The Network Installers, we have a dedicated team of highly skilled contractors available to integrate fiber optic cabling into new or existing. FTTH (Fiber to the Home): Direct fiber connection from the provider to your home. FTTC (Fiber to the Cabinet): Fiber reaches a nearby cabinet; the last leg uses copper wire.
