

Fiber Optic Server Headquarters

Overview

Fiber Optic Center is headquartered in New Bedford, 23 Centre Street, United States, and has 9 office locations. At Ziplly Fiber, the Central Office—CO for short—is the building that makes your internet connection possible. What's unique about our COs?

We sat down with our VP of Network, John van Oppen, to learn more. We host a robust network that forms the basis of our fiber optic Internet services and other Internet-based services for small, mid-market, and enterprise level. Furukawa Electric Fiber and Cable, OFS and Furukawa Electric LatAm are now Lightera. to Small & Medium Businesses, Enterprises, Carriers and Content Providers. Cogent Optical Wavelengths Ride the Cogent Wave - now covering over 1000 Carrier Neutral Data. Uniti's nationwide fiber network is built to power businesses, communities, and next-generation digital applications with 217,000+ route miles of fiber connect major metro areas, rural communities, and high-demand business hubs across 47 states. The map will be updated continuously to improve its accuracy through a combination of FCC verification efforts, new data from Internet.
