

Free quote for QSFP-DD fiber optic Ethernet switch in Mali

Overview

Click to get your 400G transceiver modules and cables from nearby warehouses. Trusted by 260K+ Enterprise Users. QSFP-DD (Quad Small Form-Factor Pluggable Double Density) transceivers double the number of high-speed electrical interfaces in QSFP to achieve 400G Ethernet speeds – and double them again to reach 800G. As a FS provides an expanding portfolio of 400G OSFP/QSFP112/QSFP-DD solutions featuring high-performance, high-bandwidth, and backward compatibility. This plug-in module is compatible with Ethernet 400GBase-ZR+ cabling, ensuring reliable connectivity for wired networks.

Free quote for QSFP-DD fiber optic Ethernet switch in Mali

QSFP-DD Interconnect System enables faceplate density equal to the current 2x1 QSFP form factor, but with 8-lane ports. In other words, a total of 256 differential pairs with 32 ports delivers double-lane ...

Quad small form pluggable double density (QSFP-DD) transceivers maximize port economy and density by utilizing multiple lanes of data. QSFP-DD fiber transceivers utilize eight lanes as opposed to the ...

The 400G transceiver modules are ideal choice for AI data centers, enterprise networks and service provider networks. Click to get your 400G transceiver modules and cables from nearby warehouses. ...

Quad Small Form-factor Pluggable Double Density (QSFP-DD) solution that fits into high-density switch and router client ports for optical interconnect links

Download the overview datasheet for QSFP-DD transceivers, or browse all our transceivers, AOC and DAC cable assemblies. At Smartoptics, we believe strongly in an open approach, smart design ...
