

Georgia Flame-Retardant Cable Tray Company

Georgia Flame-Retardant Cable Tray Company

FireResistant Solutions provides cable tray covering and fire-protection systems designed to safeguard electrical and data infrastructure in commercial and multifamily buildings.

Our company's cable insulation, cable tray, and pipeline fireproof materials adhere to the global standards recognized by FM (Factory Mutual Insurance Company).

Made from recycled paper and treated with natural flame retardants, Ure-K enhances fire safety while offering four standard colors and custom options for design flexibility.

Yes, GRP cable trays are made from flame retardant materials and can withstand exposure to fire without igniting. They do not release toxic gases when exposed to heat, which enhances safety.

NewReach specializes in fire-rated cable trays that are carefully designed to endure high temperatures and prevent the spread of flames.

The mostly combustible cable sheaths and insulation allow a fire to spread along the cable at rapid speed. Our tested solutions for cable fire protection can delay the spread of fire in order to minimise ...

In the simplest sense, the coating transforms a group of cables into one large single cable, covered with a fire retardant jacket. Cable Coating Fire Breaks have been proven to be an effective, dependable ...

These accessories ensure secure and efficient cable management solutions tailored to specific project requirements. Our GRP FRP cable trays are manufactured using glass-armed thermoset fire ...

Unifrax's FyreWrap® Cable Insulation is a thin, flexible, insulation wrap designed to provide a fire-protective enclosure around cable trays and conduit.

Georgia Flameproofing has a Certificate of Fitness to apply flame retardant and to issue flameproofing affidavits. We are committed to meeting our customers' needs by providing professional service, fair ...
