

German-made medium and low voltage complete sets of equipment

Overview

Their products and services range from state-of-the-art medium and low voltage systems, plant and process automation, control systems to turnkey project management, project engineering, industrial installation and service right through to integrated electrotechnical. Their products and services range from state-of-the-art medium and low voltage systems, plant and process automation, control systems to turnkey project management, project engineering, industrial installation and service right through to integrated electrotechnical. World leader in low and medium voltage and railway switchgear. We have stood for innovation, quality and reliability for over 100 years. learn more We are a globally operating company and one of the leading suppliers of low- and medium-voltage switchgear and switching devices from. In the field of low and medium voltage, HENTGES today has a comprehensive portfolio that covers a large part of the needs in the distribution and control of electrical power. For 20 years, we have been producing a proprietary product series toroidal transformers. As a manufacturer with our own. Planning, development, production – we will take over all steps up to the approval of switchgears for medium-voltage systems. In addition to the delivery of the

equipment, we also like to offer you the complete installation, commissioning and regular servicing as well as maintenance.

German-made medium and low voltage complete sets of equipment

We plan, build, and modernize energy systems for industrial and commercial applications - from transformers and transformer stations to medium and low voltage switchgear.

We are a globally operating company and one of the leading suppliers of low- and medium-voltage switchgear and switching devices from 0.4 kV to 38.5 kV/52 kV - "Made in Germany".

A German electrical engineering company is manufacturer of low and medium-voltage switchgears and automation technology at the highest level. They also offer their customers ...

In addition to the delivery of the equipment, we also like to offer you the complete installation, commissioning and regular servicing as well as maintenance. We can also provide retrofitting ...

Need help choosing Medium Voltage Switchgear? Use this simple selector to find the best fit for your needs.

We are your contact, no matter if it is about a medium-voltage or low-voltage switchgear! We offer 10 kV and 20 kV air or SF6 insulated switchgear. Additions, extensions and conversions as well as special ...

SM6 Series Medium Voltage Switchgear (10-35kV)
Air Insulated Ring Main Unit SPRM-12 Gas insulated ring network cabinet (inflatable cabinet)
SPRM-12 Fully insulated gas-filled ring main unit
SPRM-24 ...

Decades of experience in research, development and manufacturing make NATUS one of the largest manufacturers of air-insulated medium-voltage switchgear systems.

As a German switchgear manufacturer, we plan, manufacture and install a wide variety of switchgear. All switchgear offered by SZM, no matter if air insulated or gas insulated, are SF6-free.
