

# H3c5130 optical module optical port

## Overview

Use the command display transceiver to view the optical module information of all optical ports, and use the command display transceiver interface interface-type interface-number to view the optical module information of a specific optical port. Table 3 Console port specifications · Provides connection to an ASCII terminal. Table 4 10/100/1000BASE-T autosensing Ethernet port specifications Table 5 SFP+ port specifications The 10GE SFP+ Ethernet fiber. Reading optical module information during use helps understand its real-time operating status, allowing you to locate the cause of link abnormalities more quickly. The following uses the Mduletek QSFP-40G-LR4 module connected to an H3C S6820 switch as an example to introduce how to read. Page 3 Preface H3C S5130-HI Switch Series Installation Guide describes the procedures for installing, accessing, and troubleshooting the H3C S5130-HI Switch Series. This preface includes the following topics about the documentation: • Audience. The S5130S-HI switch series comes with. H3C S5130S-EI Series Switches - A simple (fixed power design), cost-effective and easy to deploy access switching solution with POE+ that offer enhanced security, high-density GE and 10GbE uplinks, static route, RIP, OSPF, SDN and IRF enabled,

flexible management, which meet the requirements for.

## H3c5130 optical module optical port

The following uses the Mduletek QSFP-40G-LR4 module connected to an H3C S6820 switch as an example to introduce how to read information of the connected optical module on an ...

Optical modules are widely used in switches, network interface cards (NICs), routers, and other communication devices. During use, reading optical module information helps understand its real ...

- The H3C transceiver modules and cables are subject to change over time. For the most recent list of H3C transceiver modules and cables, contact your H3C Support or marketing staff.

Rear of the optical fiber distribution box

Disconnected optical fibers or transceiver modules might emit invisible laser light. Do not stare into beams or view directly with optical instruments when the switch is operating. The switch is a Class 1 ...

Installation Guides ... Operating Environment Requirements ... Power Supply Manuals ... Transceiver Modules ... Upgrade Guides ... Visio Hardware Component Stencils ... Compliance and Safety ...

Use the command display transceiver to view the optical module information of all optical ports, and use the command display transceiver interface interface-type interface-number to view the ...

Table 5 SFP+ port specifications. The 10GE SFP+ Ethernet fiber ports are mainly used for transmitting and receiving GE fiber port services. GE SFP transceiver modules and cables described in Table 6. ...

Rack-mounting by using front and rear mounting brackets This mounting method is applicable only to the S5130-30C-PWR-HI, S5130-54C-PWR-HI, and S5130-54QS-HI switches.

The S5130S-HI switch series uses built-in lightning protection technology and supports industry leading switch port 6KV anti-lightning capability, which can greatly reduce the rate of lightning damage to the ...

H3C S5130S-EI series switches use professional built-in surge protection technology and supports the industry-leading 6KV service port surge protection capability, which greatly reduces the damage rate ...
