

High-density AC-DC power supply IP54 in stock

High-density AC-DC power supply IP54 in stock

Whether you need a robust power source for industrial equipment, outdoor lighting, or sensitive electronic devices, our IP54-rated options ensure optimal performance and longevity. With a variety ...

The decentralized FIEPOS field power supplies with high protection classes IP54, IP65 or IP67 were developed for flexible use directly in the field. The efficient 300 W and 500 W field power supplies fit ...

CUI's space and energy saving high-density open-frame AC-DC power supplies are suitable for ITE, industrial, and consumer electronics applications.

HDL3000 Series The HDL3000 series offers users both output voltage and output current programming (0 - 105%) via resistance, voltage or I2C bus in a very high efficiency, high power density 3kW ...

Our portfolio includes High Power DC-DC and AC-DC power supplies, with output power ratings up to 10 kW. These products are designed for semiconductor, industrial, medical, and military applications ...

Find your ip54 power supply easily amongst the 41 products from the leading brands (Absopulse, VEICHI, Gustav Klein, ...) on DirectIndustry, the industry specialist for your professional purchases.

HEP-320 is a 320W, industrial AC/DC power supply capable of operating under a harsh environment with high dust density, humidity, vibration, and altitude. Housed in a robust, aluminium case and fully ...

Our AC to DC power supplies transform alternating current (AC) into a stable direct current (DC) voltage, which is then be used to power electrical equipment in industrial applications.

With low ripple, high stability, and a range of output control options, our high voltage power solutions offer low cost of ownership and ease of integration and use, including 0-100% programmable voltage ...

High-power AC-DC and DC-DC converter units with high efficiency and reliability. Modular units suitable for most modern applications.
