How to connect a fiber optic module to a switch

SFP transceiver modules are specific to the type of fiber being connected (either single mode or multimode). Choose an SFP module based on the fiber optic cabling that will be connected to the ...

The objective is to run 1 or 2 additional optic fibre from the main switch down to the shed in the back of my garden and down to the garage as well. Here's a quick sketch to present the layout ...

Ensure it's securely connected. Connect the fiber optic cable: Attach the fiber optic cable's connector to the transceiver module on the switch. Make sure the connector type (e.g., SC, LC) ...

An SFP module (or optical transceiver) converts electrical signals from network devices (switches, routers) into optical signals for fiber transmission and vice versa.
