

How to identify the model of a distribution box cover

Overview

We look for an electrical panel brand, model & data tag (usually paper) or embossed rating (on fuse pull outs) on the panel itself which often includes the amperage rating of the panel. The older the panel, the harder it will be to figure out the manufacturer. Major manufacturers like Square D are easy to recognize, but obscure and defunct brands of a bygone era can be problematic. A few manufacturers emboss their name and logo right on the door of the panel, like the long-gone. The item does not have a nuclear hardened feature or any other critical feature such as tolerance, fit restriction or application. NONREPARABLE ITEMS (Exclusive of Insurance and Provisioning Items). An item of Army. As the heart of plant-level digitalization, ABB's Distributed Control Systems (DCS) are designed to transform your multi-faceted, 24/7 process operations. A distribution box is a key part of electrical systems in buildings. Explore a variety of brands like Eaton, Leviton, and Square D.

How to identify the model of a distribution box cover
