

Huijue 120km Single-Fiber Optic Module

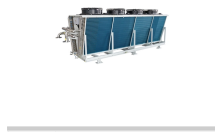

LoRa handheld portable base station

Huijue 120km Single-Fiber Optic Module

Product description The capacity of SFP-7120-55 module is 1.25Gbps (Gigabit ...

We will put the fiber optic transceivers into blister package or self-sealed bags first, then we put them in cartons. there is label and marks by huihongfiber as default however we can do the packing and ...

The HW compatible SFP transceiver supports up to 120km link lengths over single-mode fiber (SMF). This transceiver is compliant with SFF-8431 and SFF-8432 MSA standards.

Previously used H3C original optical fiber transceivers, now buy here, tech say no difference, will buy again.

We provide modules for multi-mode and single-mode fiber up to 120Km, as well as BiDirectional WDM modules for single strand communications up to 160Km and CWDM and DWDM technology SFP ...

The SFP SM series single mode transceivers is small form factor pluggable module for bi - directional serial optical data communications. It is with the SFP 20 - pin connector to allow hot plug capability.

1.25G SFP Module 1000Base SFP BIDI DDM Single Fiber 120km Fiber Optical Transceiver

Single-fiber bidirectional (BIDI) optical modules must be used in pairs. For example, SFP-10G-BXU1 must be used with SFP-10G-BXD1.

This sealed optical transceiver module is designed to deliver superior performance and enhanced connectivity. With its high speed data transmission, it is perfect for use in a variety of networking ...

Product description The capacity of SFP-7120-55 module is 1.25Gbps (Gigabit rate). The transceiver is able to work on long-haul 9/125um single-mode fiber for up to 120Km distance. The fiber standard for ...

All modules satisfy class I laser safety requirements. What is SFP-GE-LH120-SM 1550 1.25G 1550nm 120km Optical Transceiver Module?
