

Imported Armored Fiber Strippers for Railway Communication

what we offer is professional

Imported Armored Fiber Strippers for Railway Communication

Its main purpose is to gain mid-span access to fiber optic conductors by slitting the outer jacket or jacket and armor on the above cables. The tool is designed with a precision adjustable blade to avoid ...

Our cutting-edge fiber stripping equipment is specifically designed for fiber optic coating removal, and we offer a comprehensive range of options. Discover our proven line of high-strength thermal ...

International distributor for fiber optic components, equipment and accessories while providing invaluable technical consultation and support.

Professional-grade tool ideal for slitting the armor layer on fiber feeder, central tube & stranded loose tube fiber optic cables, as well as various other non-fiber armored cables.

Fiber strippers are precision tools that remove a coating from a fiber before connectorization or splicing. There are mechanical, thermal and non-contact strippers.

Designed to slit and ring fiber optic cables from 1.2 mm to 7.5 mm (0.05" to 0.3") in diameter, this cable slit and ring tool is perfect for slitting and ringing cables, buffer tubes, and jackets on fiber optic cables.

This longitudinal cable stripper can adjust the cutting depth of the blade according to the thickness of the cable sheath, and is suitable for optical cables with 2 cores to 288 cores and cable diameters ...

Jonard Tools manufactures a large range of fiber optic stripping tools specifically designed for technicians in the fiber optics industry. Jonard Tools is committed to manufacturing our products with ...
