

Inner Stacked Ninety Degree Cable Tray

Inner Stacked Ninety Degree Cable Tray

This riser enables the horizontal to vertical connection of cable tray sections.

This allows the tray to rest on each side of a wall opening where in which the tray can not run through. It can also be used to simple support the end of a raceway run.

"Cable Tray System" is an assembly of formed metal sections, coupled together by splice plates to provide an economical and rigid structure for supporting a wide range of cables. "GLOBE" Cable Tray ...
