# Installation of rain shelter for outdoor electrical distribution box

## Overview

Answer: Use a weather-rated outdoor electrical outlet box with a raintight flip cover or a bubble cover depending on the location. NOTE: Some text links below go to applicable products on Amazon. As an Amazon Associate, I earn from qualifying purchases. Using my links helps to keep. Solarcraft three-sided electrical equipment shelters are designed for outdoor installations of instrumentation cabinets, electrical cabinets, controls, and other valuable equipment requiring more protection than an exposed electrical rack. Weather-proof solutions help these systems work safely and efficiently. Misjudging its capabilities can result in costly equipment failures, while overengineering to a higher rating can lead to wasted investment. The DOHO. Enclosure rain hoods and drip shields are essential accessories for protecting electrical enclosures from moisture, precipitation, and water runoff in outdoor and harsh indoor environments.
