

Integrated Power Cabinet Cold Aisle NEMA4X Manufacturer

Integrated Power Cabinet Cold Aisle NEMA4X Manufacturer

All of the our Frigid-X™ Cabinet Panel Coolers are stainless steel, not just the vortex tube for longer life and flexible use. There are virtually no moving parts.

Systems with thermostat control to minimize compressed air usage are available. Systems including an automatic drain filter separator to ensure no water passes through the Cabinet Cooler are also ...

NEMA 4X (IP66) Cabinet Coolers are constructed of stainless steel for food service and other corrosive environments. Unlike expensive, freon-based air conditioners, EXAIR Cabinet Coolers incorporate a ...

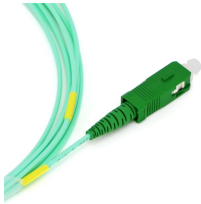

EXAIR NEMA 4 NHP Cabinet Cooler® Systems offer high cooling performance for large enclosures, dust-tight, splash-resistant, and ideal for harsh environments.

NEMA 4 (IP66) Cabinet Cooler systems are dust and oil tight, splash resistant and indoor/outdoor capable. By incorporating a low pressure valve for all air exhaust, the valve closes and seals when ...

Each of these systems include a water-dirt filter separator to prevent water condensate and dirt from entering your enclosure and a cold air distribution kit used to direct the air for circulation or on to hot ...

APC NetShelter Aisle Containment Hot and cold air containment systems designed to maximize cooling predictability, capacity, and efficiency at the rack, row or room level. Intelligent air containment ...

Vortex A/C Coolers incorporate the most up-to-date features into Vortec's line of highly reliable, cost effective enclosure cooling systems. The Vortex A/C is available in four different cooling capacities, ...

Find out how to improve your data center infrastructure efficiency, using the cold aisle containment or hot aisle containment solutions from Vertiv.

NEMA 12, 4, and 4X Cabinet Cooler Systems are available with a thermostat control or as a continuous operation system. The wear, corrosion and oxidation resistance of stainless steel ...
