

Integrated Power Supplier in Africa

Overview

Integrated Africa Power (IAP) is multi-unit enterprise specialized in energy and infrastructures development on the African continent. We seek to solve Africa's energy deficits, through integrated systems solutions, resource pooling, and cross-border cooperation. Consulting and Design: Tailored primary and secondary distribution solutions aligned with various IEC standards. Energenic AE specialises in the wholesale of advanced alternative energy. African nations have set ambitious targets to expand renewable energy capacity from 56 GW in 2022 to 300 GW by 2030, aiming to electrify communities, stimulate economic growth, and establish global leadership in climate action.
