

Intelligent PDU Intelligent Solution

Intelligent PDU Intelligent Solution

Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Designed to simplify deployment and take stress out of power distribution, this intelligent PDU ...

What Is an Intelligent PDU? An intelligent PDU, also known as smart PDU, goes beyond distributing power to IT equipment within the data center. It is capable of monitoring, managing, and controlling ...

Raritan, a global leader in intelligent rack PDUs, environment management, and KVM switch products, delivers solutions to increase the reliability and intelligence of data centers around the globe, ...

Remote power control solutions for data centers, telecom & industrial sites. Intelligent PDU with real-time monitoring. Factory-direct, globally certified.

We design a full suite of services to optimize the performance and longevity of your PDUs from initial setup to routine inspections, ...

Our PDUs are equipped with state-of-the-art sensors and AI-driven analytics. This technology enables precise monitoring of power usage and environmental conditions, contributing to proactive ...

With today's increasing demand for high technology power management solutions, a complete smart rack PDU solution and the associated software allow data center managers to make key decisions ...

By leveraging intelligent features such as remote monitoring, metering, switching, and environmental sensing, an Intelligent PDU enables data center administrators to optimize energy usage, minimize ...

What Is an Intelligent PDU and Why Does It Matter? An intelligent PDU is a smart device that distributes power while providing real-time monitoring and control. It plays a critical role in modern data centers ...

We design a full suite of services to optimize the performance and longevity of your PDUs from initial setup to routine inspections, ensuring that our team of experts installs everything correctly and to the ...

Modular, compact intelligent PDU with inlet metering. Ultra-Low Profile Design. Reduce IP addresses by Daisy Chaining up to 64 PDU's.
