## Jianli Fire Cable Tray

Introduction of FRP cable tray: Cable tray is assembled by pultruded FRP profiles; suitable for electrical cable, control cables, lightning cable and fittings.

They are made of a steel frame coated with fire-resistant paint or composite fire-resistant panels. Under high temperatures, they form a heat-insulating char layer that prevents the spread of fire.

Sealed your operations with our Fire Rated Cable Trays, engineered to keep your electricity supply functional even in fire emergencies. Built to endure heavy loads without collapsing.

Explore the importance of fire-resistant cable trays in high-risk environments. Learn about the best materials and practices to ensure maximum safety and performance in fire-sensitive areas.

Your Reliable Manufacturer of Cable Tray & Cable Ladder Cost-Effective Solution Minimized Fire Hazards Reduce the Risk of Cable Damage Effective Cable Routing and Organization Send Your ...

JLH cable trays mainly include cable trunking, cable ladder, perforated cable tray, wire mesh cable tray, strut channel, and cable tray fittings, etc. All these product are engineered and ...

Lightweight yet highly durable, it offers reliable safety and easy installation. Widely applicable in chemical, petroleum, metallurgy, and other environments with fire protection requirements, it ...

Jinlai specializes in the design and optimization of cable tray systems. Our solutions cover a wide range of complex environments, ensuring safe and efficient cable routing through precision design and high ...

Shop high-quality fire resistance cable trays for reliable networking. Customize your solution with durable, efficient, and cost-effective options. Buy now!

With a focus on durability and fire resistance, our cable trays are available in widths ranging from 50 mm to 1000 mm, providing flexibility in design and installation. The length of the tray can be customized ...
