

Lebanese manufacturer of low-loss passive optical components supplies directly

Overview

Lfiber provides optical components, fiber optic modules, micro-optic devices and more, with wavelengths from 380 nm to 2000 nm. Lfiber can customize non-standard products according to your individual requirements. Professional manufacturer of optical passive components: We provide our clients with a complete and integrated solution: from 400~2100nm all kind of passive optical components. We specialize in the fields of light (photon) transmission, switching, amplification, detection & sensing. To meet the increasing critical technical demands of. Founded in 2017, BEC is the newest provider of electronic components in the Lebanese market, offering a diverse selection of products for both educational and professional applications. 0 mm and other hard-to-find optics. We provide custom optics and assemblies. LIEKKI® passive fibers are especially designed and manufactured to match the optical guiding properties of LIEKKI® large mode area Ytterbium doped fibers.

Lebanese manufacturer of low-loss passive optical components sup

GLSUN makes DFB LD chips & photodiode chips, high quality optical switches, mems variable optical attenuators, optical isolators, cwdm, dwdm, optical splitters, optical line protection and fiber ...

As an ISO-certified factory, we follow lean manufacturing standards that empowers quick mass production with consistent quality for every passive optical component.

HyOptic FWDM Filter is a 3 ports passive optical component based on TFF (Thin Film Filter) technology, which can split 1260-1410nm band wavelength from input mixed optical signals to PASS port, and ...

LIEKKI® passive fibers are especially designed and manufactured to match the optical guiding properties of LIEKKI® large mode area Ytterbium doped fibers. This enables optimal mode ...

Lfiber designs, manufactures and supplies a broad range of types of optical components, fiber optic modules, micro-optic devices and more. We specialize in the fields of light (photon) transmission, ...

We are a manufacturer of high quality optical passive components mainly for fiber laser and Optical Fibers applications.

Founded in 2017, BEC is the newest provider of electronic components in the Lebanese market, offering a diverse selection of products for both educational and professional applications.

Ross Optical is a top-ranking supplier for OEMs in medical devices, automation, and other industries. We provide custom optics and assemblies, from design to fabrication, coating, and assembly.
