

Manufacturing of High-End Passive Optical Devices

Manufacturing of High-End Passive Optical Devices

Optopax offers small to mid-volume manufacturing and procurement services utilizing an extensive global network of optical components, optoelectronic, and optomechanical partners and suppliers.

Our unique expertise in specifying, manufacturing, tolerancing, and measuring optical components helps us lead the way in the industry with unmatched investment in cutting-edge equipment and testing.

The manufacturing process begins with imaging and etching passive optical devices, such as waveguides and couplers, which guide and direct the light on the chip.

Today, we rise in the engineering and manufacturing of a variety of high-performance, top-tier passive optical components. Through our solutions, we support the needs of the national telecommunication ...

Optipow is a leading manufacturer specializing in innovative and high-quality optical passive components. We pride ourselves on offering our clients a complete and integrated solution, covering ...

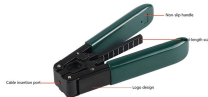

Optical Passive Components R& D and Manufacturing Improve the performance and reliability of optical communication systems with high quality!

It devotes itself to becoming a manufacturer of optical passive devices leading the development of cutting-edge technologies in the industry, and takes it as an honor to provide services to global data ...

Our optical manufacturing experts focus on experimental research and the manufacturing of high accuracy and low roughness optics, in a completely in-house production process also including ...

This list features 24 optoelectronic devices manufacturing companies, varying in size from small enterprises to those with thousands of employees. Headquarter locations span across multiple ...
