

Nordic E2000 Connector Low Loss

Nordic E2000 Connector Low Loss

The E-2000 is an optical fiber plug connector with push-pull locking mechanism and a self-closing dust protection flap. The connector is available for both singlemode and multimode applications.

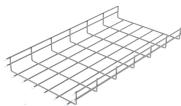

Our E2000 connector features high precision alignment, low insertion loss and back reflection loss.

Find out all of the information about the DIAMOND SA product: optical connector E-2000® series. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest ...

The E-2000® connector by DIAMOND - inventor of this reliable, high-performance fiber optic solution - offers low insertion loss and multiple interface options for versatile, demanding applications.

The E-2000TM Simplex offers unparalleled 0.1 dB maximum insertion loss random mating, exceptional repeat-ability, while maintaining the already well established, superior features of the E-2000TM ...

Buy E2000 Connector at the best price from Norden Communication, the global manufacturer and supplier of electrical and optical solutions. Choose Norden for the worldwide supply of E2000 ...

The E2000 fiber optic connector meets the working environment of -40-85 °C, with an average of more than 500-1000 insertion and removal tests, with stable performance and reliable quality.

The E-2000™ Connector offers a spring-loaded shutter mechanism that protects the ferrule end-face from scratches and dust while locking out potentially eye damaging laser radiation.

Diamond E2000 premium connectors deliver 75dB return loss, automatic protective caps, and 5-year warranty for FTTH deployment. Swiss precision quality, German manufacturing.

The E2000 connector provided by HYC has the advantages of more convenient insertion and removal, low insertion loss and high compressive strength. It is widely used in telecom networks, CATV, ...
