

## Norway s Bestselling Optoelectronic Integration Solution

### Overview

HySpex is a leading global brand in hyperspectral imaging, known for stable, flexible sensors with exceptional data quality. The technology stems from Norsk Elektro Optikk (NEO), Norway's largest independent electro-optics R&D company. The hyperspectral imaging activities at NEO started in 1995. Operating in four countries, LASER COMPONENTS Nordic understands both the shared characteristics and unique nuances across the Scandinavia market. Smartoptics offers innovative optical networking solutions, including a full portfolio of optical transceivers designed to enhance network capacity and flexibility.

## Norway s Bestselling Optoelectronic Integration Solution
