

Norwegian Optical Cable Splice Box

Norwegian Optical Cable Splice Box

Here you will find an overview of all our fiber cables and components for fiber optic networks and communication.

Designed for high-density splice storage with emphasis on proper fiber management, the OSB is configured with simple and efficient cable port seals and cable tie-down features. OSB enclosures ...

Furnished with four plugged cable ports (2 aluminum and 2 plastic) for either All-Dielectric Self-Supporting (ADSS) or Optical Ground Wire (OPGW) cables, the splice enclosure can be pre ...

It's simple two-piece design with a snap-on cover allows quick and easy mounting on practically any flat surface (wall, backboard, furniture) or on a standard wall electrical outlet box/bracket (both American ...

Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the ...

The splice box functions as a connection point between the fiber optic installation cable and pigtails. Within the splice cassette, the fiber optic cable is carefully spliced and separated into pigtails.

In our factories in Norway and Slovakia, we produce systems based on high-quality optical connectors and cables. We manufacture data racks in aluminum and have a production line for CAT cables.

The main components of a splice box are the splice cassette that picks up the fibers and their reserves, and the front panel which contains different connectors for transmitting signals via copper or fiber ...

Fiber optic wall boxes and splice boxes by Telegärtner offer a maximum amount of ports using a minimum of space. Based on Telegärtner's decades of experience, they offer easy and reliable ...
