

OTDR fiber optic tester EXFO device

OTDR fiber optic tester EXFO device

The EXFO FTB Lite 720D is a high-performance Optical Time Domain Reflectometer (OTDR) designed for testing and troubleshooting fiber optic networks. It is ideal for technicians involved in the ...

As Fiber4u Technologies, we offer the highest quality fiber optic OTDR devices from trusted brands such as VIAVI, EXFO, and SmartOTDR. Our devices are equipped with all the features you need to test ...

The FTB-2, available in a standard or Pro model, is the most compact solution on the market for multirate, multitechnology, multiservice testing, delivering all the power of a high-end ...

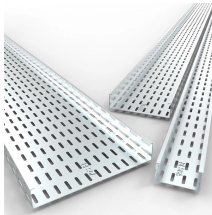

Fully featured, entry-level, dedicated OTDR with tablet-inspired design, suitable for metro and optimized to test through optical splitters, for seamless end-to-end FTTH characterization and troubleshooting. ...

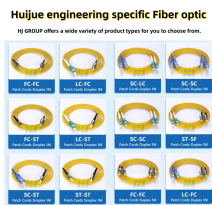

It delivers EXFO's tried and true OTDR quality and accuracy along with the best optical performance for right-first-time results, every time. The plug-and-play hardware options, like the VFL, power meter ...

The MaxTester 720C (MAX-720C) provides first-time-right fiber characterization thanks to its short dead zones and effective dynamic range. This compact quad unit is optimized for singlemode and ...

EXFO MAX-720D SM OTDR Tester offers a complete and integrated solution with OTDR testing and iOLM fiber cable analysis capabilities.

The OTDR 2 environment offers icon-based functions, instant boot-up, automatic macrobend finders as well as improved auto and real-time modes. The MaxTester 700D Series is a line of genuine high ...

Engineers use these devices to find splices and defects and to determine the integrity of fiber cables. OTDR measurements are unidirectional since light injections occur at the end of a cable link. EXFO ...
