

Omron Intelligent Fiber Optic Sensor

Overview

Today, already with over 500 standard, application optic solutions to leading manufacturers, especially in the semiconductor, the consumer electronics and the car electronics industry, as well as for food packaging and small pla.

Today, already with over 500 standard, application optic solutions to leading manufacturers, especially in the semiconductor, the consumer electronics and the car electronics industry, as well as for food packaging and small plastic parts production. The requirements for fiber optic solutions can be very demanding particularly for applications wi.

attention enhances productivity and reduces maintenance costs. Tested resistance against aggressive chemicals, extreme temperatures, low pressure (vacuum), mechanical abuse

Housing construction preventing protruding cables (e.g. square shape, side view models) High flex fibers with 1 mm bending radius for close wall

mounting Robot fibers tested with more than one million bending cycles

Protective metal or plas. LED power control against aging effects Auto-

threshold control for enhanced compensation of power decrease, e.g. through

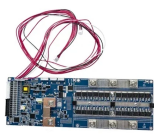

dirt on lenses With minimal time required for mounting the fibers the

productivity can be enhanced for machine builders and the easy setting of the

amplifiers simplifies production changes for machine users. Easy-teach
amplifiers or manual adjusters Easy manual adjustment by potentiometer One-
button auto teach for in-process dynamic teaching, or two-point object.

Omron Intelligent Fiber Optic Sensor

Mouser offers inventory, pricing, & datasheets for Omron Fiber Optic Sensors.

With these Separate-amplifier Sensors, the light from the Amplifier is transmitted through a fiber to enable detection in narrow places, other locations with limited access. Fiber Units, a wide variation of ...

Buy OMRON INDUSTRIAL AUTOMATION Fiber Optic Sensors. Newark Electronics offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

Omron's fiber optic sensors and amplifiers offer high-speed, accurate and reliable detection in a compact package. Discover the range now.

Omron's high-performance fiber optic sensors and amplifiers come in a wide variety of configurations to meet your specialized requirements.
