

Optical module 10G 800G

Optical module 10G 800G

Wholesale 10G–800G optical transceivers by Fibrecross: high-performance, cost-effective modules with dedicated support for data centers infrastructures.

The common duplex interface in the Data Center • LC connectivity is the leading duplex form factor for 10G through 800G

The introduction of 800G switch ports, optical modules, and DACs provides a significant opportunity for service providers to upgrade network performance without waiting for the 800GE standards.

This innovative solution enables more simplified and reliable edge and data center networks aligned with a standards-based ecosystem and can help eliminate ...

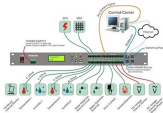

FS offers a growing portfolio of optical transceivers, with speed range from 100M, 1G, 10G, 25G, 40G, 50G, 100G, 200G, 400G to 800G and beyond. The fiber optic ...
