

Palau Fiber Optic Cable Manufacturer

Overview

The Belau Submarine Cable Corporation is a state-owned public corporation that owns and manages a submarine fiber optic cable network for the Republic of Palau. This project entails construction of a low latency submarine fiber optic cable linking Palau to a branching unit on the SEA-US submarine. The Palau Cable 1 (PC1) is the first international submarine cable connecting Palau, ready for service in 2017. Palau's remote location led to a slow uptake of its information and communications technology. An AIFFP loan and grant package is enabling increased internet connectivity in Palau, with Australia, Japan and the United States supporting construction of a fibre optic submarine cable system. The project cable laying in Palau, June 2022. We're proud to support the construction of Palau's second. BELAU SUBMARINE CABLE CORP. Our insights help businesses to make data-backed strategic decisions.
