

Plastic Fiber Optic Handheld Power Meter

Plastic Fiber Optic Handheld Power Meter

FOPM-201 optical power meter is a portable, handheld tester that can be carried in the field without being cumbersome or adding to your already heavy load of tools and equipment.

You can use it for both absolute optical power measurements and relative loss measurements, and you will enjoy its ingenious appearance, wide range of power measurement, high accuracy and user self ...

It is an essential tool for fiber optic technicians during the installation, testing, and maintenance of fiber networks. The device accurately measures optical signal power, typically in dBm or mW, and ...

Compact and portable, this device replaces the need for separate optical power meters and red pens, making it a cost-effective solution. An English manual is included for straightforward setup and ...

Optical Power Meters (OPMs) are indispensable tools for Fiber Technicians and Field Installers as well as for fiber engineers assessing the available fiber plant.

Fiber optical power meter is a tool for telecom and CATV network. This handheld optical power meter features ingenious appearance, wide range of power measurement, high accurate test precision and ...

Covering a wide wavelength range of 800-1650 nm, it supports six pre-calibrated wavelengths for accurate fiber link assessment. Designed with a durable, compact, and lightweight ...

Measures optical power via a USB 2.0 connection to a PC/laptop/smart device - makes digital processing of optical power measurements possible and integrates directly with the VIAVI ...

Equip your fiber optic toolkit with a versatile power meter. Measure optical power, detect breaks, and test network cables with these compact, portable devices.

Optical power meters for any network. A range of handheld meters with choice of styles. Best accuracy, flexibility and easy to use.
