

Price of bent panels for distribution boxes

Overview

A typical home replacement for a 100-125A indoor panel runs about \$1,200-\$2,500 in parts and labor; a 200A outdoor upgrade with new meter socket can reach \$3,000-\$6,000. Assumptions: standard conduit routing, existing wiring reachable within 10-30 feet, and a single dwelling. Buyers typically pay for a full panel replacement, including labor, materials, and permits. The article outlines cost ranges, per-unit pricing, and practical. Track and check the status of an order. Panelboards and load centers distribute electrical current to circuits and subpanels.
