

# Quality Assurance of Moroccan Distribution Box Equipment

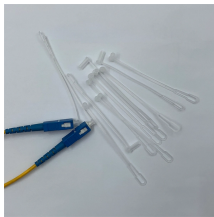

## Overview

The Moroccan product compliance assessment system is partly based on the European CE system, just like the Moroccan standards. Nevertheless, Morocco has its own conformity CMIM marking, and also a Verification of Conformity programme. There is also a separate radio type. Morocco's warehousing and logistics landscape plays a pivotal role in supporting its economy. Surface is spanning over 710850 square kilometers. The capital city is Rabat In Morocco you will mostly performing sourcing and purchasing for goods such as Phosphates, Rock Mining And Processing, Food Processing. Pro QC International now offers Quality Assurance and Quality Control services in Morocco. Our 40 years of experience across the globe coupled with relentless customer focus has helped us grow into one of the leading third-party quality control companies in Morocco over a short period of time. IMANOR (Institut Marocain de Normalisation) is the national standards body of Morocco and is responsible for standardization in Morocco. Its mission is to: Produce Moroccan standards. Our team of Auditors can visit any Supplier or Customer to review and assess them.
