

Quotation for High-Precision Single-Fiber Two-Way Interconnect for Data Centers

Quotation for High-Precision Single-Fiber Two-Way Interconnect for

Through our Hypertac, IDI and Sabritec technology brands, we supply application-specific, high-reliability electrical interconnect solutions from highly integrated assemblies to microminiature ...

1x2 and 2x2 Singlemode Fiber Couplers | Fiber Optic Couplers

P.I. is a leader in the manufacturing and distribution of high quality network cabling and interconnect products. We are a custom cable manufacturer specializing in custom and standard cable ...

Independently tested for interoperability with most major equipment manufacturers, our high speed interconnects are tested above industry standards to ensure high performance, cost-effective, quality ...

We'll save you money on Fiber Optic Cables Assemblies Telecom Data Center Supply including Bulk Fiber Optic Cables, Fiber Optic Cables Assemblies, Data Center Racks, Zone 4 Seismic Enclosure ...

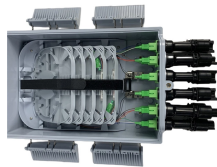

A steady stream of new high-speed interconnect vendors are entering the market. Many suppliers claim to make and code DACs and AOCs, but in reality they are being assembled and coded by ...

Cable Assemblies & Harnesses INTRODUCTION Our 1.00 mm precision RF interconnect solution, which supports frequencies from DC - 110 GHz, is a complete solution that includes:

Contact our application engineering experts. We'll connect you with a product specialist who can help you find the answers to your specific application questions. Not sure who to talk to? Get help with ...

Custom data center cabling with pre-termination, DC Twin™ modeling, and deployment kitting. Reduce deployment time 50-75%. Request a quote.

Available in direct-attach and breakout configurations, these AOC cables support switch, server, and GPU interconnects for scalable and efficient network deployment. Choose the appropriate AOC ...
