

Rack-mounted modular data center

Rack-mounted modular data center

Eaton's SmartRack® Modular Data Centers address this growing demand with IT rack, cooling and service enclosures that form a performance-optimized data center, or POD.

Rack-based modular systems bring together IT racks, cooling units, service enclosures and monitoring tools into compact and scalable package.

Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks, fully configured and ready to handle your IT needs now and for the long haul.

Our standard portfolio includes a variety of solutions, ranging from a half rack edge/micro data center to 5-100 rack modular data centers of which multiple can be tied together, to cover the unique needs of ...

By opting for a Delta modular rack cabinet, data centers choose the ultimate combination of convenience, flexibility, and safety. Delta manufactures a 42U rack system to suit the needs of nearly ...

Nearly every aspect of the data center can be customized—from rack layout and power configuration to cooling type, flooring, lighting, and security systems. We design each system to meet your specific ...

Data centers turn to on-site power and battery storage Data center operators are expected to increase behind-the-meter power ...

Delta InfraSuite Datacenter management system featuring modular racks and accessories for customizing datacenters for mission critical applications.

Schneider Electric Prefabricated Modular Pod Data Center is engineered for speed, scalability, and flexibility. It supports up to 40+ high-density racks per pod with hybrid liquid-air cooling.

Modular data centers assure scalability for future expansions, embody repeatable designs, and exhibit superior quality via factory control. This simplified assembly enables swift transportation by road, rail, ...
