

Relay Protection After-Sales Service Company

Overview

We provide nationwide repair services for obsolete electromechanical protective relays, switchboard meters and other obsolete electrical/electronic equipment utilized on electrical power systems. Our expertise spans protective microprocessor-based relay and meter installations, retrofits, commissioning, maintenance testing. Servicing protective relays per manufacturer and NETA recommendations ensures they work properly to prevent injury or extensive damage to your plant during an electrical distribution abnormality.

Relay Protection After-Sales Service Company

Our company welcomes your relevant personnel to inspect the performance and quality of the manufacturing process, raw materials, and parts on site at any time, and participate in the product ...

The experienced relay technicians of Vertiv™ understand the critical nature of working with an active protection scheme and the impact testing and maintenance has on critical system operation.

Power Relaying Solutions, PLLC (PRS) is an engineering services company specializing in protection, control and automation solutions for the electric power industry.

Sertec Protective Relay Services buys and sells protective relays and specializes in extending the life of obsolete electromechanical protective relays by providing quality repair, remanufacture and retrofit ...

Regular inspection and maintenance of relaying is essential in protecting your electrical system from damage due to faults.

Protective Relay and Meter Installations: We furnish & install advanced microprocessor-based protective relays and meters that offer superior protection and monitoring for your power systems.

Many facilities are replacing their aging relays with microprocessor-based relays for optimal protection. HVM delivers turnkey solutions including engineering evaluation, relay logic design and integration, ...

We have teams of skilled and experienced technicians who can install, inspect, test, and repair Protective Relays to help ensure the smooth flow of power and system safety.

We buy, sell and repair protective relays. Specializing in extending the life of electromechanical protective relays of all types and manufacture from simple induction disk overcurrent relays to ...

By storing the protection settings and configuration files online through our cloud service, they can be easily restored in the event of malfunction, repair or replacement of the relay.
