

Single-core fiber optic access switch

Single-core fiber optic access switch

Discover fiber switches designed for reliable network connectivity. Browse 10G, 2.5G, and gigabit options to expand your bandwidth.

These component-style fiber-optic prism optical switches utilize moving prisms between fixed collimator pairs, which allows bi-directional switch operation independent of data rate and signal format.

Small office/home office (SOHO) applications typically use a single Fiber Switch or an all-purpose converged device, such as a residential gateway to access small office/home broadband services ...

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...

The Model 6250 utilizes SMF (Single Mode Fiber), which supports long-distance transmission with minimal signal loss. Single Mode Fiber is well suited for campus, outdoor, secure, and mission ...

Along with the higher bandwidth, the Cisco MDS 9124V switch supports ease of configuration and management, detailed and in-depth performance insights, and automation ...

The Model 6250 utilizes SMF (Single Mode Fiber), which supports long-distance transmission with minimal signal loss. Single Mode Fiber is well suited for ...

Fiber optic switches (single-mode fiber optical switches) are passive devices possessing two or more ports which selectively transmits, redirects or blocks optical power in an optical fiber transmission ...

The DXS-3400 Series switches feature a modular fan and power supply design for a high availability architecture. The hot-swappable design means that fans and power supplies can be replaced without ...

Managed and unmanaged Layer 2 and Layer 3 fiber optic Ethernet switches. With 10G SFP+ fiber optic transceiver modules, they meet your highest bandwidth demand.

Sercalo Microtechnology's SC type co-axial 1xN and 2xN fiber optic switches are based on a design where a single MEMS mirror redirects light from a common fiber to one of N ports. The miniature ...
