

Single-core heat shrink tubing for optical fiber

Single-core heat shrink tubing for optical fiber

A specially designed cross-linked clear heat shrinkable tubing, with clear fusion tubing liner, providing strength member and protection to fiber optical splices

Fiber Splice Heat Shrink Tube is ordinarily made of nylon or polyolefin. They provide good electrical insulation, protection from dust, solvents and other foreign materials, as well as strain relief. If ...

Customizable color options for convenient installation and identification. Available with single fiber and ribbon fiber. Customized designs are available upon request. Experience the convenience, reliability, ...

Featuring a single steel wire reinforcement and an eco-friendly PE jacket, this tubing provides superior mechanical strength and environmental resistance. Sold in packs of 250 pieces, it is perfect for large ...

Shop Heat Shrink Fusion Splice Sleeve, Single Fiber, 60mm Length, Pack Of 50 By Corning (2806031-01) At Graybar, Your Trusted Resource For Fiber Optic Accessories And Other Corning Products.

With heat-shrink tubing, adhesive lining, and a stainless steel needle, it provides excellent mechanical strength, low optical loss, and long-term protection in fiber optic networks.

In short, this fiber optic heat shrink tube is the best in fiber optic installation in terms of quality, design and practicality. During the double eleven period, take the time to place an order and ...

Corning offers a variety of splice protection choices to meet your needs. All the types of protection allow individual fiber access in the splice tray. Corning offers heat-shrink protection in both single-fiber and ...

Consist of cross linked polyolefin, Hot fusion tubing and Stainless Reinforcing Steel Rod which keep optic transmission properties of optical fiber and enhance the protection to optical fiber splices.

A specially designed cross-linked Clear Heat Shrinkable tubing, with Clear fusion tubing liner, providing protection to fiber optical splices. Available with single fiber and ribbon fiber. Customized designs are ...
