

# Single-core single-mode 25km optical module

## Single-core single-mode 25km optical module

Equipped with a single-mode, single-fiber SC interface, this transceiver supports long-distance communication up to 25 kilometers, making it ideal for enterprise networks, data centers, and ...

Single definition: Not accompanied by another or others; solitary.

The Cisco SFP-25G-LR-S compatible SFP28 transceiver provides 25GBase-LR throughput up to 10km over single mode fiber (SMF) using a wavelength of 1310nm via an LC duplex connector. The SFP28 ...

Independent Reseller of Genuine 57-1000080-01 57-1000080-01 Brocade 8Gbps Single-mode Fiber 25km 1310nm Optical SFP+ Transceiver Module For Switches. Authorized US Brocade Partner.

SINGLE definition: 1. one only: 2. not married, or not having a romantic relationship with someone: 3. considered on.... Learn more.

Single (mathematics) (1-tuple), a list or sequence with only one element  
 Single person, a person who is not in a committed relationship  
 Single precision, a computer numbering format that occupies one ...

About this item Dual Fiber Single Mode Module: With SC port, you can easily extend your 100 Gigabit or Fast Ethernet network up to 25km. Portable: Its compact, modular design facilitates deployment in ...

Synonyms: unmarried, unpartnered, available  
 Forms often ask if a person is single, married, divorced or widowed. In this context, a person who is dating someone but who has never ...

Data Sheet datasheet is intended to guide the user through the various options available when choosing an optic module for a given platform depending on the architecture.

Define single. single synonyms, single pronunciation, single translation, English dictionary definition of single. adj. 1. Not accompanied by another or others; solitary.

QSFP-100G-ERL optical module supports 4×25G data transmission mode with high port density, low power consumption and low cost.

Single Mode fibers have a smaller core, allowing light to travel in a single, straight path, ideal for long distances with less signal loss. Multi-mode fibers have a larger core, allowing...

The meaning of SINGLE is not married. How to use single in a sentence.

This module is designed for single mode optical fiber and operates at a data rate of 100Gbps at the nominal DWDM wavelength from 1528.77nm to 1565.50nm as ...

The module operates at a 1550nm wavelength and utilizes a robust LC duplex connector. It is fully compliant with SFF-8636 standards, ensuring seamless ...

one only; unique; sole: a single example. of, pertaining to, or suitable for one person only: a single room. solitary or sole; lone: He was the single survivor. unmarried: a single man. pertaining to the ...

This module is designed for single mode optical fiber and operates at a data rate of 100Gbps at the nominal DWDM wavelength from 1528.77nm to 1565.50nm as specified by the ITU-T.

Definition of single adjective in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.
