

Single-fiber digital optical modules for sale

Single-fiber digital optical modules for sale

For horizontal shorter-length run, the Fastcabling modules are available with single mode fiber to suit your fiber connectivity applications. It can transmit data up to 20 KM with 1.25 Gigabit network speed.

Both dual fiber transceivers and single fiber Bi-Directional (BiDi) round out the flexible offering. The selection table in the Data SFP datasheet lists many of the popular options and the corresponding ...

XGS-PON SFP ONU transceiver is a high performance transceiver module for single fiber communications. It is designed to meet ITU-T G.9807.1 requirements for optical line terminal ...

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.

SFP transceivers are valued for their flexibility, low power consumption and ability to support both single-mode and multimode fiber, making them ideal for short-range and long-haul optical transport.

SFP (Small Form Pluggable) optical modules are the most used fiber optic transceiver modules in the fiber communications industry. SFP's come in a variety of data rates and different fiber coverages.

Hot-Pluggable The Intellinet Network Solutions 10 Gigabit Fiber SFP+ Optical Transceiver Module (model 507479) is fully hot-pluggable, and that allows you to install the module without rebooting ...

This module is RoHS compliant and lead-free. OptoSpan 1Gb Single Fiber optical transceivers are compatible with many brands such as Finisar, Avago, JDSU and network environments that do not ...

Our informative and experienced representatives are ready to assist you with any questions that you might have, regarding your fiber optic network. We offer a superior selection of quality products as ...

The fiber optic transceiver modules can work in any network architecture through professional capabilities and in-house lab test. Click to get your transceiver modules from nearby warehouses. 30 ...
