

Six-core optical fiber reel

Six-core optical fiber reel

Foss provides durable fiber optic cable reels for mobile, tactical, and industrial applications. Designed for easy transport, quick deployment, and reliable performance in harsh environments such as military, ...

Multi-core Integrated, 6 cores per single reel. Meet the requirement of duplicated control network. OM3-300 multi-mode fiber accepts single-mode and multi-mode SFP. Dirty fantail and broken can be ...

Cost-effective multichannel cables and reel assemblies are designed for multiple deployments for outside production using tactical fiber optic cable and Senko connectors.

Built to last in all conditions. Comes with captive LC dust caps and Beetek'' s patented connector protector. Comes standard with Velcro straps for easy storage and deployment. Optional DF and ...

All DigiSender fibre cables use a plasticised glass fibre core which is immune to breakage under normal flexing. This core is 0.01mm in diameter but so tough that a bend radius needs to be created of ...

Foss provides durable fiber optic cable reels for mobile, tactical, and industrial applications. Designed for easy transport, quick deployment, and reliable ...

The RFO-500 cable reel holds 500 meters of 6mm overall diameter cable. The full steel construction offers strength and durability you can count on for repeated use in the toughest environments.

Cost-effective multichannel cables and reel assemblies are designed for multiple ...

The Portable 6-Core LC-LC Tactical Fiber Cable with Reel is engineered to meet these exact demands. This complete solution combines a high-performance, armored fiber cable with an integrated ...

Unlike traditional metal-style reels, MARS is a lightweight, modular system constructed of an impact modified polymer that is easily transported. It is ideal for applications where cable needs to be ...

Take a look at our test program to get the reliable and high-performance fiber optic cables.

Unlike traditional metal-style reels, MARS is a lightweight, modular system constructed of an impact modified polymer that is easily transported and is ideal for applications where cable needs to be ...
