

Special Optical Cable for Rail Tracks

Special Optical Cable for Rail Tracks

In this project, OSU researchers investigated the use of a network of OFSs to continuously monitor key track response parameters at transition zones. In the first phase of this project, researchers ...

We offer Signaling and Train Control Cables that meet standards and certification for installation in the United States, Canada, and European railroads and public transit agencies.

Explore Shawflex's high-performance cables for transit applications, including subway, LRT, and freight rail. Our solutions meet AREMA, CP-100, CSA, UL, and NFPA standards, offering flame retardancy, ...

Leading supplier of Network Rail-approved trackside fibre cable - NR/PS/TEL/00014. Technical support, fast quote and fast delivery.

Special Cables for Railway Applications About Us
CAVICEL is an innovator in the design and manufacturing of copper and fibre optic special cables for specific applications. CAVICEL has been ...

Our comprehensive range of railway and underground cables covers all functionalities and can be used to operate in nearly all railway cabling infrastructures.

Supplier of choice for electrical and fibre cables across Rail, Mining, Defence, Transportation and Energy industries. Railcorp Item #1 - 1 Core x 7/0.4 (0.88mm²), PVC Insulated, Nylon Outer ...

Cables from 1 to 25 quads of 0.9 or 1.4 mm, polyethylene insulated. Quads are stranded in layers to form the core which is then protected by an anti inductive sheath with reduction factor 0,3.

Grid Cable for marine and offshore applications

We specialize in providing transit and rail cables that meet relevant ASTM and UL toxicity, flame, and smoke requirements, supporting compliance with transit regulations and internal safety policies.

In the last 50 years, Tratos has been key in helping enhance many of the existing Fire Performance standards for cables within the Railway and Mass Transit applications, developing new solutions for
