

Specifications and Models of Outdoor Dual-Core Optical Cable

Specifications and Models of Outdoor Dual-Core Optical Cable

OM1 LC to SC Indoor/Outdoor 62.5/125 Multimode Duplex fiber optic cable. This fiber jumper is tightly buffered in a flexible, black, indoor/outdoor, water/UV resistant, jacket. A rugged fiber cable that's ...

This is a black 1000 foot spool of indoor/outdoor rated fiber optic distribution cable intended for large installations of short range runs at LAN Speeds. It is composed of 2 multimode fibers (62.5 micron ...

Outdoor Structured fiber optic cabling. AFL offers armored loose tube, heavy duty, gel-free, double jacket, single armor, non-armored, rodent resistant, MicroCore, OSP, FTTx and Uniflex optical fiber ...

This cable offers good mechanical environmental characteristics and the Anti-UV characteristics meet the requirements of the FTTH standards. Our fiber optic cables are factory tested complying with the ...

Fiber used in these cables are bend insensitive and can be used for applications where multiple bends are present. These light weight cables are suitable for direct installation in Villas, Multi dwelling units ...

Our team will make sure the configuration is tailored to your needs and will provide a detailed quote. Email us using the Request a Quote below, or give our team a call.

Fiber optic cables for outdoor applications are engineered to withstand the more demanding conditions seen outside, from environmental extremes to mechanical forces.

These plenum jacketed cables are suitable for indoor and outdoor installations in conduit, below the frost line. The cables are designed for operation across wide temperature variations (-40C to 75C), ...

event EIA/TIA-455 series FOTPs for fiber optic cables. Opti-Core 10Gig Gel-Free Indoor/Outdoor Cable features the highest quality OM3 and OM4 laser optimized fiber to support 10 Gb/s applications while ...

This specification covers the design requirements of structure, mechanical, physical and performance standards for the supply of optical fiber cables. The features described in this document are intended ...
