

Sri Lanka Tunable Optical Module DML

Sri Lanka Tunable Optical Module DML

The optical signal transmitted through optical fibers is not constant; instead, it is a modulated signal with varying intensity. The characteristics and application differences between DML ...

The CJMCU-101 is an integrated photodiode and transimpedance amplifier with a chip inside. Putting integrated photodiodes and transimpedance amplifiers on a single chip can prevent common ...

NEC's Tunable SFP is an optical transceiver that allows wavelength change and contributes to the WDM of the network. It reduces the complexity of wavelength management and inventory management, ...

In ETU-LINK's optical module product line, we provide a choice of optical modules based on DML and EML modulation technologies according to customers' diverse needs and application ...

This Multipurpose Laser Level is suitable for hanging pictures, installing shelves, laying floors, hanging wallpapers, and so on. It is a necessity for every home.

The optical transmitter utilizes the Lumentum tunable ILMZ chip to provide a high performance, 25 Gbps transceiver. Channel tuning is supported on the ITU-T 100 GHz grid across full C-band with ± 2.5 ...

Vous êtes ici: ColomboCCTV Home Page / Shop / Optical Module Optical Module Showing all 8 results Hikvision Optical Module

Abstract: Tunable semiconductor lasers continue to be in just about everyone's list of important components for future fiber optic networks. Various designs will be overviewed with particular ...

DAHUA SFP-1310R-20-SMF FAST ETHERNET OPTICAL MODULE (2y) In Stock, Only 5 left Rs. 7,700.00 or 3 X Rs. 2,874.67 with * T& C Apply

Featuring a single +12V DC power supply and a SMA RF input connector, this module is easy to operate and integrate. The module can be controlled remotely via the RS485 interface. Wavelength other ...

The optical signal transmitted through optical fibers is not constant; instead, it is a modulated signal with varying intensity. The characteristics and ...
